

FIG. 1

FIG. 1 is a schematic diagram of a system for the control of a process. The system includes a control unit 10, a process unit 20, and a feedback unit 30. The control unit 10 is connected to the process unit 20, which is connected to the feedback unit 30. The feedback unit 30 provides feedback to the control unit 10.

FIG. 2

FIG. 2 shows the results of the experiment in which the worm-like structures were subjected to a series of tests.

FIG. 4

Sequence alignment of collagen alpha precursor (CAF) and collagen type 12 (C12) from various species.

FIG. 5

[illegible]

A high-contrast, black and white image of a complex, irregular, and highly textured object, possibly a biological specimen or a mineral sample. The object is composed of numerous small, rounded, and elongated components, giving it a clumpy, cellular appearance. It is set against a plain white background.
